

Service Inspection Checklist

2010

Utility Vehicles

Customer:		Model:			PIN:	
Component Description		Recommendation			Comments	
		OK	Repair/Adj	Replace		
Engine						
1	Check engine compartment					
2	Check cooling fins					
3	Check blower screens					
4	Check rubber dust unloading valve					
5	Check/ change engine oil					
6	Check? Change oil filter					
7	Check for oil leaks					
8	Check exhaust system					
9	Check high and low idle speed					
10	Check throttle cable adjustment Δ					
11	Check/ clean spark plug					
12	Check spark arrestor					
13	Check/ adjust choke cable assembly					
Cooling System (6X4 Only)						
14	Check radiator and cap					
15	Check hoses/lines					
16	Check coolant level					
17	Check grille screens					
18	Check fan shroud					
19	Check thermostat					
Fuel System						
20	Check fuel tank					
21	Check fuel tank gauge					
22	Check/ replace in-line fuel filter					
23	Check fuel shut-off operation					
24	Check fuel tank check valve assembly					

Δ These are key safety areas that should be inspected carefully.
